LEWIS CREEK  
ORCHARD RESERVE

750 ML  
BOTTLES

Our Lewis Creek Orchard Reserve series showcases the cider-specific apple varieties grown in our orchard. Unlike most apples grown in the United States, these French, English, and American varieties are selected for the qualities that make exceptional cider. Each has a distinct history and unique flavor profile, offering depth and complexity that allow many to shine as single-varietal ciders.

Cider-specific apples are selected for their characteristics of high levels of acid, sugar, or tannins. The resulting delightful ciders are a celebration of the apple, a truly diverse and amazing fruit!
